Malte Myrén Pettersson  
born 1996 in Sweden  
currently based in Stockholm

Right now I am studying Grafisk formgivning and illustration at Konstfack.

I make animations, different kind of short videos, draw and paint, and build sculptures.

I also like to climb, skate and make music/sounddesign.

My goal is to write and illustrate my own books, and being involved in making a computer game.

Two of my biggest inspirations are Sven Nordquist and John Bauer.
